## **A story of passion, refined craftsmanship and innovation**

Peroni brothers, Piero and Roberto, founded their fur and leathersgoods workshop in Florence in 1956, driven by their passion for beauty and their idea of creating unique products, carefully defined in any single detail, all 100% handmade in Florence-Italy.

Today, the third Peroni generation, Maurizio and Marco, is still using the original ancient Florentine cuoietto technique, combining it with a rigorous selection of raw materials and high quality artisanship.

Piero&Maurizio have been making refined handmade creations with passion and skill in their workshop in **Florence**

Piero Peroni

Maurizio Peroni

**Every single Peroni piece is created with care and love,  
telling its own story**

All Peroni production is exclusively handmade: no compromises are accepted but quality to create a contemporary item with ancient root.

Peroni Collections are totally customizable according to our clients' taste and always capable of overcoming the passing of time.

We respect environment

We use only vegetable tanned and hypoallergenic leather and biodegradable dyes
